Garrett Brown	-0.05	0.30	0.00		0.16		1.23	0.33	1.60	1.41					1.41	0.62

* AGS is my own metric that uses public available statistics to quantify each player's contribution to team success for a single game.
  AGS combines scoring, shots, faceoffs, plus/minus, blocked shots, and penalties into a single value.
  The metric is still a work in progress, for the complete forumla see the link in comments.
